Historical Highlights at Michigan State University in Areas of Agricultural Economics and Farm Management (1855-1965)
By Elton B. Hill
Professor Emeritus
Agricultural Economics Department

Part I of the Series
History of the Work in Farm Management and Agricultural Economics at Michigan State
Misc. Series No. 1968-9 (July 1968)

1855 Michigan Agricultural College was founded. The enabling law was signed by Governor Kingsley S. Bingham on February 12, 1855.
1857 First students were enrolled at Michigan Agricultural College.
1860 According to the U.S. Census, there were 62,422 farms and 749,113 persons in Michigan.
1898 First Michigan Agricultural College bulletin published in the area of farm management was entitled, "Suggestions on Farm Accounts," by C.D. Smith, Dean of Agriculture. M.A.C.'s 43rd year.
1900 At this date there were 203,261 farms and 21,420,982 persons in Michigan. At the turn of the century there were 652 students at M.A.C., an increase of 25 students over the previous year.
1906 Farm management instruction at Michigan State was offered for the first time in course entitled, "Business methods" for short course students in agriculture. Taught by C. D. Smith, Dean of Agriculture.
1906 Department of History and Economics established with Wilbur O. Hedrick, formerly Instructor in English 1891-93 and Asst. Prof. in the Department of History and Political Science, 1893-1906 at M.A.C., as Head of the Department. M.A.C.'s 51st year.
1908 R. S. Shaw, Professor of Agriculture at M.A.C. since 1902 was appointed Dean of Agriculture to succeed C. D. Smith, who had resigned to become president of a college in South America.
1911 Teaching in agricultural economics was initiated by Wilbur O. Hedrick, of the Department of History and Economics, for degree students at M.A.C. with a two-credit course, "Agricultural Economics." M.A.C.'s 56th year.
1912 Extension work in farm management in Michigan was initiated with the appointment of M. J. Thompson as Field Agent, Farm Management Field Studies and employed directly by the Extension Division of M. A. C.
1913 Research in farm management was initiated by the Dairy Section of the Agricultural Experiment Station with the employment of Fred T. Riddell to devote full-time to a study of the cost of milk production.
1914 Teaching of farm management to degree students was offered for the first time at M.A.C., by Dean Robert S. Shaw. There were 1,999 students at M.A.C. of which 1,235 were in the Division of Agriculture and Forestry
1915 First extension specialist in agricultural marketing. James N. McBride was appointed as State Market Director and located in the agricultural extension service but under the direct authority of the governing board of M.A.C. M.A.C.'s 60th year.
1916 Department of Economics was established with W. O. Hedrick as head of department with staff consisting of Charles S. Dunford and Paul C. Miller and to offer teaching only with no research or extension activities.
1916 At this time there were only four Divisions at M.A.C.; namely, agriculture, engineering, home economics and veterinary medicine. Students interested in arts and science courses enrolled in the Division of Agriculture which provided for a high proportion of required and elective courses in these areas.
1916 Teaching of the subject, Farmers' Cooperatives, was initiated at M.A.C. with a two-credit course entitled, "Rural Organizations," by W. O. Hedrick. It was perhaps the second course in farmer cooperatives taught in the United States. The subject was discontinued at the end of three years.

1920 Economics Department was admitted to the M.A.C. Agricultural Experiment Station and research work was initiated by the appointment of Wayne Newton to study rural taxation. There were 196,447 farms and 3,668,412 persons in Michigan and 2,036 students at M.A.C. M.A.C.'s 65th year.

1921 Farm Management Department established within the Division of Agriculture with the appointment of Howard M. Eliot as head. Prof. Eliot had been Extension Specialist in Farm Management at M.A.C. since June 24, 1920. The department was to participate in all three types of activities; teaching, research and extension. There were 8 members in Farm Management staff and 2 members in the agricultural economics section of the Economics Department.

1921 Economics Department was assigned to the newly established Division of Applied Science. The department was now doing both teaching and research in agricultural economics.

1923 Farm Management Department terminated by President David Friday. All but one of the 10 members of the department were dismissed. Fred T. Riddell was retained to continue teaching one course in farm management and was assigned to the office of the Dean of Agriculture.

1924 Economics Department was transferred from the Division of Applied Science to the newly established Division of Arts.
