Drafted by MT Weber Sept 2016

- This is a tutorial for AFRE faculty and specialist on obtaining and organizing the information needed to create a Faculty Profile on the AFRE web page, under the main tab “People” and subtab “Faculty”.

- This tutorial is designed to accompany the downloadable word document where the information obtained will be entered, and then this document will be sent to Taylor Logan, who will post the faculty profile to the AFRE website.
  - The downloadable word document is: Form for Information Needed to Create a New Faculty Profile - Downloadable Word Document

- To begin the process, go to an existing faculty profile to see how your new profile will look, and the different pages of information needed. For example, see: Cloé Garnache

- The information in the two boxes on the downloadable form are to get what is necessary for the basic entry on your profile. Items highlighted in Red below are to be filled in, and also follow the instruction for sending a photo to Taylor Logan

**Ask Faculty/Specialist for a photo in jpeg format for posting to their profile.**
